MERCHANDISING / PACKAGING

- All drain grills come with full colour label and are individually shrink wrapped and placed in clear plastic sleeve.
- Drain Gratings are bar coded. Display storage units are also available which hold 10 rainwater pit grates.

MATERIALS & MANUFACTURING COMPONENTS

Manufactured from virgin Cast Aluminium Powder Coating - five stage process:

1. Acid etching & cleaning
2. Chromate conversion prior to coating
3. Preheat casting prior to coating
4. Coating of grate
5. Heat treatment of powder

RAINWATER PITS

- Great Ideas designer drainage grates (storm drains) are designed to fit the popular Draingrates standard box drains, and most standard 250x250mm pits made from plastic or concrete.
- They are suitable for all domestic outdoor areas and are easily installed. These drain grills are recommended for pedestrian traffic.
- Our drain gratings are made of non-corrosive aluminium - meaning they last!
- Approximate dimensions of the Draingrates 250x250mm rainwater pit. Pit colour: Black
